Dear Stakeholders,

I am pleased to share with you the third annual Communications on Progress (COP) report produced by Shwe Taung Group, reaffirming our continued support to strengthen the sustainability of our group of companies by upholding the ten principles of the United Nations Global Compact (UNGC).

Since committing to the UNGC, Shwe Taung Group has been consistently working towards reinforcing our pledge to the ten UNGC principles, specifically in the areas of human rights, labour, environment and anti-corruption. This COP report demonstrates the developments we have achieved by way of sustainably reducing our carbon footprint, enhancing labour rights, decreasing and monitoring corruption and upholding a universal standard of human rights across all of our business models.

In 2015, sustainability practices remained the focal point of Shwe Taung Group’s long-term business strategy in line with our corporate vision of “Inspiring lives with responsible investment and sustainable development”. This year the COP report discusses our progress towards operating a more sustainable business model and discusses how we are working to develop greater tools to assess and measure our sustainability practices in accordance with the UNGC principles. Further to this, the report highlights the shift Shwe Taung Group is making from traditional corporate social responsibility strategies towards implementing sustainability practices and shared value initiatives with the ultimate objective of reaching the Sustainable Development Goals (SDGs) in the future.

Our COP report will be shared amongst our stakeholders to ensure our beliefs surrounding the importance of sustainable practices within the private sector are promoted through responsible public reporting. In addition, the COP report will help promote the need for all businesses to shift their corporate visions to foster the principles of sustainable development and work with us to achieve the SDGs and transform the world.

Shwe Taung Group acknowledges that the ten guiding UNGC principles promote sustainable business practices to support social and economic development. Therefore, we fully commit to work towards holistically integrating these principles within our business model.

It is with great pleasure we support the UNGC in 2015 and we look forward to the advancement of our COP report in the future.

Sincerely,

Aik Htun
About the Report

This year we align our COP report to the calendar year 2015, and future COP reports will follow future calendar years. Shwe Taung Group aims to achieve sustainable outcomes across all our projects and business ventures through responsible investment and development. Our business strategy encompasses the UNGC principles to ensure the sustainable development of Myanmar, whilst continually creating value for our stakeholders. Shwe Taung Group is a reputable corporate citizen which always places all stakeholders in the best position to thrive from the value of our work. We focus on Myanmar’s development through enhancing people’s lives, protecting the environment and participating in the country’s overall development.

This report builds off our previous two COP reports, with greater detail concerning our sustainability practices as we continue to grow and develop shared value projects which champion community engagement, and inspire others to follow suit. In addition, this report follows the core Global Reporting Initiative (GRI) G4 guidelines to help communicate Shwe Taung Group’s progress on the UNGC principles. The GRI G4 guidelines consist of reporting principles and standard disclosures for effective sustainability reporting. The UNGC and the GRI G4 are complementary initiatives and have been incorporated into our COP report in order to ensure our sustainability reporting is of an internationally recognised standard. Shwe Taung Group will continue to report annually and work towards enhancing our sustainability practices each year.

In addition to the GRI G4 and UNGC guiding principles, Shwe Taung Group have made a commitment to work towards achieving the 17 United Nations Sustainable Development Goals (SDG) which were established in 2015. Shwe Taung Group is committed to reaching all SDGs. We care about the communities we work in and we aim to improve the national standard of living through the sustainable development of Myanmar. Our objective is to achieve sustainable outcomes through private public ventures and shared value initiatives. Shwe Taung Group is invested in the communities we work beside, our consumers are our key stakeholders and we strive to support the communities we serve. The COP report will discuss our progress towards achieving the SDGs and in addition highlight the ways in which we have begun to shift our company strategy away from the traditional methods of Corporate Social Responsibility (CSR) strategies to focus on more sustainable practices.

Data Collection

The data collection for this report was overseen by our Corporate Sustainability Team of five sustainability experts who work permanently within Shwe Taung Group. In addition, a representative from each subsidiary company provided detailed materials regarding the sustainability progress and procedures of each company within Shwe Taung Group. This allowed for a holistic approach to gathering the relevant documents and ensures each company has a voice within the COP report. Shwe Taung Group is in the process of implementing an external audit in order to allow for an objective assessment for an improved sustainable development strategy in the future.

As a reader of this report and Shwe Taung Group stakeholder, your views are important to us. Please send comments and suggestions to - info@shwetaunggroup.com
1. End poverty in all its forms everywhere.
2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture.
3. Ensure healthy lives and promote well-being for all at all ages.
4. Ensure inclusive equitable quality education and promote lifelong learning opportunities for all.
5. Achieve gender equality and empower all women and girls.
6. Ensure availability and sustainable management of water and sanitation for all.
7. Ensure access to affordable, reliable, sustainable and modern energy for all.
8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.
9. Build resilient infrastructure, promote inclusive and sustainable industrialisation and foster innovation.
10. Reduce inequality within and among countries.
11. Make cities and human settlements inclusive, safe, resilient and sustainable.
12. Ensure sustainable consumption and production patterns.
13. Take urgent action to combat climate change and its impacts.*
14. Conserve and sustainably use the oceans, seas and marine resources for sustainable development.
15. Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss.
16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.
17. Strengthen the means of implementation and revitalise the global partnership for sustainable development.
Responsible investment and sustainable development are inherent to Shwe Taung Group’s culture. We aim to provide a high standard of international quality products and services while operating sustainably. To reflect our approach and commitment to sustainable practices and the SDGs, our COP report incorporates the following key processes:

**Materiality**
This COP report captures all of Shwe Taung Group’s sustainability efforts to produce significant economic, environmental and social impacts across Myanmar, and will be used as a tool to substantively influence the assessments and decisions of our stakeholders. Reporting mechanisms will be used as a primary tool to measure outcomes of our sustainability practices.

**Stakeholder Inclusiveness**
Shwe Taung Group has successfully identified its stakeholders in order to produce relevant sustainable strategies to respond to their expectations and interests in a reasonable manner. Through effective stakeholder engagement, Shwe Taung Group is able to influence and engage in the necessary dialogue to promote sustainable business practices in a wider context.

**Sustainability Context**
Our report aims to highlight Shwe Taung Group’s business performance within the sustainability context by providing details of our corporate objectives, strategies, procedures and outcomes. This report highlights our recent strategic shift from traditional CSR methods to a more sustainable long-term approach of shared value initiatives supporting the community and our business growth.

**Completeness**
The COP report provides a complete overview of the measured outcomes concerning our progress towards greater sustainability. We aim to present the significant economic, environmental and social impacts Shwe Taung Group has sustainably contributed to over the past year in an objective manner. The report will cover our performance from January to December 2015.

**Principled Business**
The COP report will highlight the ten principles on human rights, labour, environment, and anti-corruption exclusively in relation to the work of Shwe Taung Group.

**Strengthening Society**
Taking action and collaborating with businesses, local and international institutions and civil society in order to advance global challenges.

**Leadership Commitment**
Effective long-term change for greater sustainability measures begins with Shwe Taung Group’s leadership in the business realm. Shwe Taung Group is leading the way in Myanmar for sustainable business practices and policies. We continue to act as a role model for local companies to strive to become more sustainable and to implement policies that will ensure Myanmar is working towards reaching the SDGs to transform the world beyond 2030.
Reporting Progress
Transparency in business practice is a critical element for sustainable development. Shwe Taung Group continues to grow its audits, measurement of outcomes, and external evaluations to ensure we reach our highest possible standard of sustainability reporting. We have aligned our COP report to the calendar year 2015, and future COP reports will follow future calendar years.

Local Action
Shwe Taung Group has over 20 years’ experience operating in Myanmar. This places us at a significant advantage to approach local sustainability solutions through appropriate contextual knowledge of local needs. All of our projects, both urban and rural, focus on the communities near to them in order to measure the impacts and outcomes of our presence in their area. We do this because we care and Shwe Taung Group understands that for our projects to create shared value for us as a business and our consumers as stakeholders, we must understand and accommodate the communities’ needs and motivations.

MATERIALITY STRATEGY
Sustainability is an ever evolving practice for business developers. In order to ensure Shwe Taung Group remains adaptable and able to manage the challenges of sustainable practice, we have established a set of tools to assess our policies and continually measure our outcomes.

STAKEHOLDER INCLUSIVENESS
Our key stakeholders are identified as the local and national governments in Myanmar, our consumers, employees and suppliers. We care about including our stakeholders in the development of working towards more sustainable practices and continue to educate them on the importance of sustainability for the benefit of the community. In order to build a strong and healthy community, our stakeholders must benefit from our actions. Shwe Taung Group is a leader in Myanmar at stakeholder inclusivity.

Shwe Taung Group’s commitment to sustainability is made public for our business partners and civil society through avenues such as the COP report, our website, contractual agreements, and our soon to be published Code of Conduct. Our business strategy relies on long-term relationships built on trust and confidence. We aim to set a positive example to our stakeholders in order to ensure sustainable development is a widely understood concept that is being actively pursued.
In addition to the long-term value we aim to create within our strategic partnerships, Shwe Taung Group has a set objective to promote responsible business practices that benefit our business partnerships and societal development.

- Contracts, sustainability policies and practices, company policies

Shwe Taung Group has established a Code of Conduct for its suppliers to ensure that they comply with Shwe Taung Group’s commitment to the UNGC principles in the areas of human rights, labour, environment, and anti-corruption; with a specific focus on women, children and youth, indigenous peoples, non-governmental organisations, local authorities, workers and trade unions, business and industry, scientific and technological community.

- Contracts, mutual respect for commitment to UNGC principles

Engaging with civil society is at the core of our all our businesses’ sustainability practices. We actively work towards improving the lives of Myanmar people for the long-term.

- Sustainability activities, public private ventures, involvement in community initiatives

It is essential for us to ensure our employees are happy in their work environment and their labour rights and needs are met. All of Shwe Taung Group’s businesses maintain a diverse and inclusive workplace where employees are able to feel proud of the work they are a part of.

- Code of Conduct, skills development, employees surveying and further training

We are committed to providing our clients with quality goods and services for a fair market price. Our customers are aware of our sustainability practices and it is our job to continue to advocate for consumers to make smart choices and invest their time and money into responsible businesses and products.

- ISO, best practice customer service, involvement in community initiatives

Shwe Taung Group engages in both national and international institutions working to continue the development of responsible business standards at a global and local level. We maintain an open dialogue with such institutions in order to provide feedback on market standards and corporate responsibility in the context of sustainability.

- Participation in national and international dialogue and conventions

Shwe Taung Group supports the development of Myanmar through public private ventures. We help to influence the improvement of national policy for country-wide sustainable development.

- Contracts, participation in national development and sustainability practices

Sustainable Development through Shared Value
SUSTAINABILITY CONTEXT

Myanmar is facing a dramatic period of economic growth and political transition. Over the last decade the country’s GDP has grown at an unprecedented rate, with individual wealth and social development continually on the rise. It is during these years of rapid growth that businesses must implement sustainable policies and practices to ensure long-term goals are met and the development process is sustainable and equitable for all citizens of Myanmar. Shwe Taung Group, as a local company with over 20 years of industry experience, is well placed to lead the way towards achieving greater outcomes for sustainable development goals through a commitment to the UNGC principles.

In addition to the positive features of Myanmar’s economic growth such as the creation of resources, jobs, infrastructure and new and advanced technology, there are substantial risks that must be observed and mitigated to ensure this growth period produces long-term wealth and prosperity for the country. Issues such as environmental conservation, community investment, and policy development are all areas of concern for rapid development. In response to this, Shwe Taung Group is developing our sustainability strategy beyond CSR. Under this strategy, our companies are beginning to adopt a more contemporary approach to corporate responsibility known as Shared Value. This initiative involves investing in business opportunities that also result in meeting community needs as a more sustainable way of empowering communities through social and economic development.

Shwe Taung Group is currently working on further developing a comprehensive set of tools to measure the outcomes of our sustainability progress and practices. These will include an updated version of our Code of Conduct, which will adhere to newly reformed policies in Myanmar in addition to reflecting upon the principles of the UNGC. We are also in the process of updating a Handbook of Ethical Practices, which will be used as a tool to provide all of Shwe Taung Group’s clients, stakeholders, suppliers and employees with a full understanding of the company’s ethical principles.

CREATING SHARED VALUE MEANS BUILDING COMPETITIVE ADVANTAGE BY SOLVING SOCIAL PROBLEMS.

Shared Value is – Policies that enhance the competitiveness of a company whilst simultaneously advancing the social and economic conditions in the communities in which it operates.

Shared Value is not - Sharing the value already created, balancing stakeholder interests or compliance with local regulations.

24 work councils and occupational health and safety committees were established to deal with impacts.
ORGANISATIONAL STRUCTURE FOR SHWE TAUNG GROUP’S SUSTAINABILITY PRACTICES

In order to ensure a company’s sustainability initiatives are consistent in their implementation across all of their enterprises, the organisational structure must encompass a holistic approach to participation from all management levels and maintain a consistent dialogue across their subsidiaries. This includes senior management to front-line employees, all of which must remain accountable for the success of the sustainable outcomes achieved. This necessitates a clear understanding of the roles and responsibilities included in the sustainability practices set out and circulated by the company.

At Shwe Taung Group, accountability is distributed through multiple levels of management and across all the company’s businesses, with subsidiary and sub-committee groups operating independently but reporting to the same board of directors. In addition to this, Shwe Taung Group has formed an independent Corporate Sustainability Team that comprises four employees and one member of the Board of Directors who coordinate with each of the subsidiary companies to ensure there is consistency and a high standard of corporate sustainable practices across the company as a whole.

The sustainability policies are independently determined by each subsidiary but must follow the direction of the Group’s overarching sustainable policies. This is closely monitored through the Corporate Sustainability Team and the subsequent sustainability working group which was formed in September 2014. The working group is exclusive to the individual Corporate Sustainability Teams of Shwe Taung Group’s subsidiary companies. Monthly meetings allow for the open exchange of information concerning the efficiency of each company’s sustainable practices from their assessment and planning stages, right through to daily implementation and on-going monitoring of operations.

The Managing Director of each subsidiary is responsible for maintaining an open dialogue and attending the working group meetings, while other team members help in the preparation of data collection concerning the sustainability-related issues of human rights, labour, environment and anti-corruption. Furthermore, in order to maintain consistent financial records of accountant-record expense impacts and ongoing assessments, Shwe Taung Group ensures that auditors from each subsidiary are involved in the sustainability working group to monitor the success and usefulness of the sustainability activities.

The Board of Directors (BoD) along with the top management team give guidelines on developing strategies and policies to address the economic, environmental and social impacts of Shwe Taung Group’s varying operations, but ultimately each subsidiary maintains autonomy to implement their own initiatives based on their activities. All operations must respect Shwe Taung Group’s vision of “Inspiring lives with responsible investment and sustainable development”.

AT SHWE TAUNG GROUP, ACCOUNTABILITY IS DISTRIBUTED THROUGH MULTIPLE LEVELS OF MANAGEMENT AND ACROSS ALL THE COMPANY’S BUSINESSES.
ORGANOGRAM OF SHWE TAUNG GROUP’S SUSTAINABILITY MANAGEMENT

Board of Directors

Audit and Corporate Sustainability Teams –
- Coordinate the activities related to sustainability initiatives
- Report concerns and feedback to the BoD

Future Energy

Future Energy’s first project was the Balu Chaung Hydropower Plant, which is located 25km east of Loikaw, Kayah State, and has an installed capacity of 52 MW with an annual production rate of 334 million KWH. This operation produces energy that will be distributed to the national grid line and is the first IPP (Independent Power Producers) and BOT (build, operate and transfer) based project of the group.

Shwe Taung Cement

Shwe Taung Cement’s core activities include quarrying for raw cement materials and the production and distribution of cement. The planned annual production capacity is 600,000 tonnes. In 2014 the company launched Apache Cement who focus on the development of eco-friendly production technologies which consume less energy, sustain resources and reduce pollution.

Shwe Taung Property Development

Shwe Taung Group has over 20 years in the property development industry, with field experience in the design, development and construction of real estate projects in Myanmar. From 1992 until today, the company has developed over 800 acres of land, including the construction of thousands of residential units, offices, commercial centres, hotels and industrial properties.
Shwe Taung Property Management

Shwe Taung Property Management offers property management services. Our portfolio extends over 600,000 sq ft and 300,000 sq ft of retail and office spaces. Our management properties include Junction Square, Junction Center Mawtin, Junction Center 8 Mile, Junction Center Zawana and Junction Center Nay Pyi Taw.

High Tech Concrete

HTC manufactures and supplies ready-mixed concrete to suppliers from various construction companies operating on sites around Myanmar. Its products include low heat concrete, high durable concrete, high early strength concrete, waterproofing concrete, self-compacting concrete and retarding concrete. HTC is the first ISO 9001:2000 certified company within the ready mixed concrete industry in Myanmar.

High Tech Concrete Technology

HTCT provides ready mixed Conventional Vibrated Concrete (CVC) and Roller Compacted Concrete (RCC) for commercial and residential buildings, federal government projects, bridge construction and crushing facilities for aggregate production. It is the only supplier of RCC for the Yeywa Hydropower Construction Project, which is the third largest RCC dam in the world.
SHWE TAUNG GROUP OVERVIEW

Golden Tri Star

GTS works in tunnel construction and bored pilling projects providing comprehensive solutions and services in engineering, technology and construction areas. Its most recent constructions include the Ruby Hall and the Hledan flyover bridge. Prior to these projects, GTS completed many successful projects such as the Shwegyin Hydropower plant, the Myanmar Economic Bank Project and the Ayeyarwady River Crossing Tower project.

Golden Tri Star Tolls

GTS manages the toll points of the Yangon-Mandalay Highway and the Sagaing-Monya/Shwe Bo Road. This includes the implementation and operation of computerised weight bridge systems and Maxtol software systems. We currently operate five toll points across the country. All toll fees are collected according to the prescribed rate of the Ministry’s public work.

Green River Construction and Engineering

GRCE is an ISO 9001:2008 certified company and has completed more than 200 projects including landmark buildings in Myanmar. The company primarily focuses on construction and its core mission is to develop a more modern Myanmar through sustainable innovative design and construction work.

**Grand Guardian Insurance**

Grand Guardian Insurance provides improved insurance policies to its customers. It was also formed to assist in founding a more sophisticated insurance sector within Myanmar. We provide financial protection against property, health and loss of life. We currently have six offices across Myanmar.

**Shwe Taung Energy**

Shwe Taung Energy operates 15 gasoline and diesel distribution centres across Yangon. These distribution centres are equipped with up-to-date gas pumps, computer controlled point-of-sale terminals, digital inventory control systems and environmentally safe gas storage tanks.

**Padamyar FM**

Padamyar radio first aired on 88.9FM in 2009. With over 15 million listeners, its news and conversations reach people across 12 major locations in Myanmar. This radio station acts as a shared value initiative, as whilst it is a profitable business through advertising measures, the radio station’s other goal is to educate people on important topics.

**Cineplex**

Junction Cineplex and Korean company GV formed a new joint venture company, Myanmar Cineplex. Within this partnership, we have three cinemas featuring the latest technology in theatre screening. Each cinema has six screens and seating capacity to hold more than 1,100 customers.
Our Missions

OUR MISSIONS

We are inspired by a sense of generosity and caring.

We care for people in need, for our communities, for the environment.

We care for our country and we want to make every Myanmar citizen proud of us.

INSPRING LIVES

CONSTRUCTING NEW MYANMAR

BUILDING QUALITY HOMES

POWERING UP THE ECONOMY

ENHANCING LIFESTYLES

SHWE TAUNG GROUP
Our Values

EXCITEMENT

Although diverse and heterogeneous, Shwe Taung people are united in sharing the joy of success.

We look at the future enthusiastically knowing that what has already been achieved is only the beginning.

The sky is the limit and we are excited to get there.

HONESTY

Shwe Taung promotes a corruption-free system that rewards innovative and value-adding participants.

Episodes and attitudes of tolerance towards dishonesty are firmly rejected.

Nobody is allowed to create private benefits at the expense of the Group and the Group itself will never benefit at the expense of the Myanmar people.

LOYALTY

Shwe Taung appreciates employees who show their loyalty throughout the years, especially during hardship and the occasional setbacks.

TRUSTWORTHINESS

Our reputation has been built on keeping our word at all times, even at the cost of big sacrifices.

Whoever deals with Shwe Taung knows we always put a full-hearted effort in to keep our promises. We can be trusted.

The trustworthy reputation of Shwe Taung is a capital we cannot afford to squander.

CARING

Shwe Taung employees are inspired by a superior sense of generosity and caring.

We care for people in need and we volunteer our efforts in disaster recovery missions.

We care for our communities, for which we build schools, hospitals and infrastructure.

We care for the environment and we adopt the most ecologically sound approaches in our businesses.

We care for our country and we want to make every Myanmar citizen proud of us.

COMMITMENT

Becoming part of the Shwe Taung family is not for everybody.

Only committed, hard working and dedicated people can ensure accomplishment and successful delivery to our customers.

Our reward for this level of sacrifice is measured not in instant gratification but in the awareness of contributing together to something positive, significant and bigger than any of us could ever imagine.

CUSTOMER FOCUS

Whatever we do, we keep customer satisfaction clear in our mind. We are acutely aware that in order to sustain our businesses in the future, we must satisfy the customer.

We feel a responsibility to make sure the whole company works hard to provide our customers with services that are well above Myanmar standards.

DISCIPLINE

At Shwe Taung we take pride in setting and enforcing rules that are fair and apply to everyone.

We do not tolerate slack and negligence. Being employed at Shwe Taung means at the very basic mastering proper manners and personal grooming, and at its best, behaving professionally and diligently at all times.

We are proud of our work ethics and we want to be seen as role models in our families and our community.
Human Rights

**Principle 1:** Support and respect the protection of internationally proclaimed human rights

**Principle 2:** Make sure that they are not complicit in human rights abuses
Human Rights at a glance

**Shared Information**

- Strive to continue the growth of responsible corporate behavior
- Participate in sustainability forums, UNGC events & workshops

**Myanmar**

- **0** No reports of human rights abuses and zero incidents occurred in 2015
- **1%** Percentage of total profits dedicated to sustainable developments and activities.
- **10%** Percentage of employees receiving training on company’s human rights policies
  - 253 male
  - 282 female
- **1%** Shwe Taung Group promotes universally accessible designs in our public projects.

**Human rights policies trained personnel**

- 253 male
- 282 female
Shwe Taung Group is in full support of the Universal Declaration of Human Rights, to which every human being is entitled. As a company we utilise the 30 articles from within the Universal Declaration of Human Rights as a common standard of achievement across all facets of our work. In addition, they act as a foundational guide for the ongoing revision of our code of conduct and employee handbook.

As a good corporate citizen, our policies and practices are all based on the protection of human rights including equal chance, the right to life, freedom of speech and religious expression, and security of the person. By maintaining a high standard of human rights protection practices, we aim to support the needs of our employees, stakeholders and beneficiaries, and also set a good example for other companies in Myanmar to follow suit for the betterment of the community at large.

**IMPLEMENTATION**

**Reporting**
In 2015 there were no reports of human rights abuses and zero incidents occurred. This is largely due to the effectiveness of the grievance mechanism policy Shwe Taung Group has implemented, in addition to the extra training all management teams across each operation have received in relation to human rights abuse prevention strategies. All of Shwe Taung Group’s suppliers and contractors are expected to maintain the same principles in relation to human rights protection, and the company is working towards making this contractually binding for future partnerships.

**Inclusivity**
Shwe Taung Group promotes universally accessible designs in our public projects, for example, all our shopping centres are wheelchair accessible with barrier free washrooms ensuring people with disabilities are not excluded from our new and innovative public buildings.

**Sustainable Developments**
In line with Shwe Taung Group’s vision “Inspire lives with responsible investment and sustainable development” the company has dedicated one percent of its total profits to sustainable developments and activities.

**Shared Information**
Shwe Taung Group are engaged with the Myanmar UNGC network and in 2015 the group celebrated their second year anniversary. Our CEO participated in a panel discussion, giving a presentation on best practices and lessons learned in regards to Shwe Taung Group’s leading sustainability activities and policies.
Training
At present, 10 percent of our employees have been individually trained in the company’s human rights policies, which equates to 535 trained personnel within Shwe Taung Group (253 male and 282 female).

• In the last 21 years, Shwe Taung Group has dedicated large sums of time and money into our sustainability activities, leading to the development of three hospitals and 85 schools across the country.
• Shwe Taung Group built a concrete cement road at the Thakayta Industrial Zone to ensure the necessary vehicles could access our on-going projects in the area. In addition, the road has been of great benefit and convenience to the communities who live in the neighbouring areas. This sustainability activity is a shared value initiative benefiting both Shwe Taung Group and the community through the construction of quality public infrastructure.

• In March 2015, Shwe Taung Group received intensive training from UNAIDS and the Myanmar Business Coalition on Aids (MBCA) and has recorded no new HIV infections, along with no discrimination or AIDS-related deaths. Our company strongly supports UNAIDS and Myanmar’s national strategic plan to combat the disease.

• Amongst the 132 operations Shwe Taung Group undertook or are ongoing, 18 percent of them have been subject to human rights reviews or human rights impact assessments. Shwe Taung Group is committed to raising this number over the years to come.

• Three times a year Shwe Taung Group have organised the “Give the Gift of Life” campaign, encouraging our employees to donate blood. This event is coordinated by our sustainability working group involving all our subsidiary companies. The group organises the travel for Shwe Taung Group employees to get to and from the blood donation facility and each donor is subsequently entitled to taking a paid rest day after donating blood. 210 employees gave blood three times in 2015 and have volunteered to be on the emergency donor list in periods of blood shortages.

• An Emergency Blood Donation Group was formed in 2014 by the sustainability working groups from Padamyar FM - Thein Kyaw Kyaw Co.,Ltd., HTCT Co., Ltd., HTC Co., Ltd., GRCE Co., Ltd., STE Co., Ltd. These groups provide traveling fees or transportation for those who have donated blood. Moreover, they are entitled to take a rest day after donating blood. Shwe Taung Group set up the Emergency Blood Donation Group (made up of internal employees) in December 2015, to help victims of road accidents in the Yangon-Mandalay regions and Sagaing-MoneYwar-Shwe Bo road toll gates. Accidents are common in these areas and emergency medical care is needed, our employee’s commitment to this cause helps to save lives. In 2015 from January to December, 141 blood bags have been donated.
• Shwe Taung Group’s Padamyar FM radio is dedicated to furthering the education of the blind in Myanmar. Releasing an audio book that features over 100 hours of educational radio programmes as part of the Community Give Back Program, this has become an annual feature of Padamyar FM Radio. In addition Padamyar Radio also broadcasts the following educational topics:

• Shwe Taung Group regularly organises community events for the most vulnerable members of the community. In the past year we ran movie nights and evening entertainment functions (with famous local talent) for children from local orphanages, as well as children suffering from physical disabilities. These events work on community building and are recreational opportunities for children who otherwise would not be able to attend public events.
• Shwe Taung Group provided travel allowances for 48 university students who were recipients of the President’s scholarship. The yearly stipend programmes help cover the costs of international travel to and from the study abroad destination and also assist with the purchasing of textbooks and stationery. On 24 August 2015, an awards ceremony was held for the selected students at the Ballroom of the Sule Shangri-La Hotel. All recipients were provided with travel to Yangon for the event.

• Quality education is a basic human right and as a result the education sector is the largest focus of our sustainability activities to date. Shwe Taung Group donated a Human Resource Development Centre (the HRD Centre) to the Yangon Technical University (YTU). This five story building, equipped with quality facilities and resources is used as a space to bring together faculty staff and students from different disciplines to continue best practice research in shared facilities.

• In addition to the HRD Centre, Shwe Taung Group offered free online access for YTU students to undertake selected courses via correspondence (a saving of GBP 500 per student). This academic programme was delivered in partnership with the Oxford Business Group and is the first of its kind in Myanmar. To date, 281 students have enrolled in online programmes.

• Shwe Taung Group runs an internship programme and an excursion programme for young professionals and students to gain practical workplace experience. Shwe Taung Group supports students from all Technology Universities in Myanmar by offering the options to undertake either of the two programmes in order to help them combine their academic skills with practical experience. Currently there are 16 students who have interned through this partnership and 48 students who have participated in excursions.
• Shwe Taung Group are committed to fire safety and continually provide training to all employees operating within our facilities. In November 2015 one of our biggest developments, Junction Square, had a fire incident and the issue was resolved within 10 minutes. This was due to employees swiftly working together to extinguish the flames and following their fire safety training to ensure everyone was evacuated in a timely manner. All employees who worked to extinguish the fire received medical check-ups and no one was harmed during the incident.

Fire safety is a sustainable practice. Reducing the amount or severity of fires can reduce wasted materials, pollution, and save money. During the event of a fire, building materials can be damaged, property lost, water wasted, and pollutants are released into the environment through the air and water. After a fire, materials that were damaged should be transferred to landfills and new materials brought in to replace them. The size and severity of the fire determines the extent of the environmental impact it will have. In addition, it is important to consider the life-cycle of a building when reviewing sustainability concepts.

After the fire at Junction Square, we have engaged international experts to investigate the full spectrum of risks and hazards in regards to health and safety concerns as an essential design criteria for our developments. We have now shared the information gathered from the investigation with our building designers, architects, engineers and operators, which highlights the hazards associated with certain sustainable features from our developments.

An action plan has been modified to further mitigate the risks caused by fire hazards:

1) Upgraded fire protection systems in all our existing developments beyond local building regulation compliance (such as, enlarging water tanks, installing centralized LPG gas provision systems and placing more fire extinguishers across our building developments)

2) Building designs have been modified to be safer and use the most effective firefighting strategies

3) More education on fire safety and awareness for all the operators and tenants within our buildings has been applied

4) First aid training for the tenants and operators of our buildings was offered

5) Updated emergency procedures including the commitment to undertake two fire drills per year
• Our participation in International White Cane Day is aimed at encouraging an attitude change in the community toward people living with disabilities – this advocacy event is for people with vision impairment and is attended by both internal employees and the community at large. It is a Yangon City Development Committee (YCDC) led event and Padamyar radio is the biggest promoter of it. Given the radio station’s wide-spread audience, we hope to create a greater impact on the community through public advocacy.

• Shwe Taung Group organised a Homage Project where we visit the homes of employees’ parents at Thadingyut who are over the age of sixty, to show respect for our elders.

• In accordance with Article 21 of the Universal Declaration of Human Rights, Shwe Taung Group ensured every employee was able to participate in the November 2015 elections. In order to do this an internal holiday was granted for all employees, to ensure everyone was able to reach a voting booth on election day.

• At Shwe Taung Group’s Hi-Star Toll Plaza, we allow people working in the emergency health services to cross without payment; this includes ambulances and doctors. Shwe Taung Group pay on their behalf as the toll creates revenue for the government and is ultimately for public use. In addition, all cars heading to religious events are allowed to cross without payment.

• Shwe Taung Group has been supporting victims of the landslide that occurred in Phasaung City, Kayah State. We have continuing projects in Kayah State and were strategically placed to assist the community due to our ongoing presence in the affected area. Shwe Taung Group was first on the ground to give aid as the landslide had made it difficult for aid agencies to access the damaged villages. We have continued to give support, including donations of clothing, food and other necessary household items. Shwe Taung Group supports Indigenous People in geographically hard to reach locations in order to provide them with the support they need in the event of a natural disaster.
Spotlight on Flood Relief

In 2015, floods destroyed entire villages, homes and community infrastructure, leaving people displaced in Chin State, Rakhine State, Sagaing Region, Magway Region and Ayeyarwaddy Region. In response, Shwe Taung Group organised a flood relief group who offered immediate aid items such as food, emergency shelter and medicine, with long-term relief groups providing medical aid through ongoing donations of medical equipment and life-saving medicines. Shwe Taung Group offered personnel to help in the reconstruction of schools that had been severely damaged across the different states/regions.
SHWE TAUNG GROUP AID RELIEF BENEFICIARIES BY STATE/REGION

SAGAING REGION
- Sagaing Township,
- Wat Latt Township,
- Kalay Township,
- Min Kin Township,
- Myin Mu Township,
- Mhone Ywa Township,

- Pwint Phyu Township,
- Michaungye’ Township,
- Saku Township.
Food supplies such as rice, cooking oil, salt, noodles, drinking water and donations of gas cylinders and stove tops were distributed along with clothes, blankets and mosquito nets to flood affected victims across the five states and regions.
Employees from Shwe Taung Group volunteered to help rebuild the affected townships. They assisted with the cleaning of wells, distribution of new water pumps, and gathering of materials to build temporary and permanent latrines.
SHWE TAUNG GROUP PROVIDED PROCUREMENT SUPPLIES TO GAUNG SAE KYUN VILLAGE, MYIN GONE VILLAGE AND GYI PAUK GONE VILLAGE WHERE TRANSPORTATION WAS LIMITED DUE TO DAMAGED TRACKS/ROADS.

The Shwe Taung Group aid groups also provided health supplies and check-ups to flood victims. The medical aid was led by doctors from the Asia Royal Hospital in partnership with Shwe Taung Group.
CHIN STATE

Shwe Taung Group donated aid to the badly affected Hakha Township and contributed to the rebuilding of the local primary school and the many houses that had been destroyed due to severe flood damage.

- Total Villages: 43

RAKHINE STATE

- Total Townships: 5
- Total Villages: 56

Shwe Taung Group always supports the rebuilding process after natural disasters occur in the country because we care about the community and want to build a stronger, more sustainable Myanmar. In addition to our aid, our environmental policies are designed to reduce the occurrence of natural disasters due to climate change.
Shwe Taung Group is working towards achieving the SDGs by working with the international community to “Transform the World”. Starting with Myanmar, we aim to: educate children, promote good health through greater access to medical facilities, improve social development through gender equality, create equal opportunities for people with disabilities, reduce our carbon footprint by lowering natural resource consumption and reliance, promote economic growth through responsible business practices and promote peace and justice through non-discriminatory policies.

Value of sustainability contribution in USD million for 2015

Labour Rights

**Principle 3:** Uphold the freedom of association and the effective recognition of the right to collective bargaining

**Principle 4:** Eliminate all forms of forced and compulsory labour

**Principle 5:** The effective abolition of child labour

**Principle 6:** The elimination of discrimination in respect of employment and occupation
Labour Rights at a glance

SHWE TAUNG GROUP – STRIVING FOR GENDER EQUALITY IN THE WORKPLACE

92% Percentage of employees return rate after Parental Leave

10% more women hired in Asset Management services by Shwe Taung Group

10x more women employed by Shwe Taung Group’s Real Estate business
ASSESSMENT, POLICY AND GOALS

Shwe Taung Group understands and gives full support to the International Labour Organisation’s (ILO) Core Conventions and Principles. We operate in compliance with national labour laws and regulations and actively work towards the elimination of all forms of illegal compulsory labour and child labour in Myanmar. We strive to achieve an international standard on labour policies and will continue to develop tools to measure the outcomes of our policies and practices for greater advancement in this area.

Shwe Taung Group allows for the participation and formation of trade unions and we recognise the right to collective bargaining.

We expect our business partners, suppliers, contractors and stakeholders to uphold an equal standard of labour rights and principles.

IMPLEMENTATION

Universal Standards
Shwe Taung Group agrees with the universal standard of strictly condemning forced labour in all circumstances. We also incorporate a policy whereby 18 is the strict age limit for employment to ensure child labour cannot occur throughout our operations.

Equality of Opportunity
Recruitment of employees at Shwe Taung Group remains based on merit, skills, experience, education and ability. We are an equal opportunity employer and have a policy of non-discrimination across all facets of employment from the hiring phase to on-going employment right through to termination or retirement. Shwe Taung Group operates in a fair manner and does not consider race, religion, gender, disability, parental status or age in any matter related to employment.

Team Building
At Shwe Taung, we believe a healthy work-life balance for employees is imperative to any successful business and the mental and physical well-being of our employees is of the upmost importance to us. In order to balance the work load with sufficient recreational activities, Shwe Taung Group facilitates the formation of company sports teams and group activities/functions outside of work hours in a relaxed environment. We also prioritise family inclusivity and ensure that all of our recreational groups include employees’ family members.
Shwe Taung Group encourages team building and a healthy work-life balance through the implementation of recreational events within the workplace. Across our subsidiaries Shwe Taung Group celebrates New Year’s Eve with our colleagues at an internally organized event. In addition to this annual celebration we also celebrate our employees’ birthdays by taking time out during the work day to present them with a cake. This is one of the many ways we show our gratitude to the valued employees of Shwe Taung Group.

Shwe Taung Group sent 100 employees on an excursion to Octagon Automobile & Machinery Services Co., Ltd (OAMS) to observe the company’s processes and operational activities. This was a skill building exercise as well as a team building event for both employees from Shwe Taung Group and OAMS CO., Ltd. As part of the excursion, one of the OAMS senior employees gave a talk on the global brands Scania and Leibherr to share knowledge of leading international companies.

**Training** – Orientation is provided to all new employees to ensure every employee has full understanding of Shwe Taung Group’s vision of “Improving lives through responsible investment and sustainable development”. This orientation provides employees with details of the company’s policies and practices and also provides them with further skills training in the area of work they are entering. This helps to develop their skill sets for growth within the company and beyond.
KEY FOCUS AREAS OF IMPLEMENTATION

Allowance

Food is provided on worksites where possible, otherwise a food allowance is provided to all employees during work hours.

Health and Safety Programme

Shwe Taung Group employees attend health and safety trainings and awareness seminars on a regular basis. Personal Protective Equipment (PPE) is distributed to employees to ensure their safety during operations.

A Lock Out Tag Out (LOTO) procedure has been established for employees to ensure their safety in the event that a machine will unexpectedly start up, either because of stored energy which was not correctly released or through the actions of someone starting the process without realising that it is not safe to do so. The LOTO standard requires that hazardous energy sources be “isolated and rendered inoperative” before maintenance or servicing work can begin.

Rules and regulations specific to different operations and projects by Shwe Taung Group are clearly laid out in the workplace in order to effectively communicate our safety measures and precautions to all employees. Penalty fees have been collected from employees who do not follow the rules and regulations, the penalty fees are then used to buy first aid kits and medical equipment.

Leave

Appropriate leave is granted for medical, maternity/paternity and emergency needs as well as annual leave and days in lieu for additional working hours. Overtime is paid out above the legal minimum in accordance with the company’s internal policies.

Bonuses

Annual bonuses are paid to employees upon performance assessments measured in line with the company’s total revenue growth for the fiscal year.

Transport

Employees working in remote areas are transported to and from work and transportation fees are taken care of by Shwe Taung Group for all employees who commute.

Collective Bargaining

In compliance with the national laws, Shwe Taung Group upholds the right of their employees to practice collective bargaining. At Shwe Taung Group, collective bargaining is encouraged as we believe employees should understand their value to the company and be compensated fairly.

Of the total parental leave taken for the year; 97 percent of males returned to work at Shwe Taung Group after their paid paternal leave and 85 percent of females returned after their paid maternity leave – a total return rate of 92 percent. This statistic reflects the welcoming attitude and adaptable environment Shwe Taung Group offers for employees with families. We are planning to open a Child Care Centre in the coming year.

Spotlight on Health Policies for Employees

Shwe Taung Group prioritises equitable access to health care for all of its employees based in the Yangon headquarters and across the country. Health care is a fundamental human right, which is why we make access to adequate healthcare a standard feature of working for Shwe Taung Group.

It is our responsibility as an employer to make sure that our working conditions are safe and receive ongoing occupational health and safety testing. In addition, in case of emergencies, we employ doctors to work on remote sites to ensure that medical attention is received quickly. Depending on the requirements of the operation, we make sure our on-site clinics are fully equipped to suit the medical needs of our employees. For example, Shwe Taung Cement has a medical clinic with an oxygen concentrator, to ensure employees working under tough conditions have the appropriate medical care required for a high risk job. As a unique addition, Shwe Taung Group has organised for the Red Cross first aid app to be freely downloaded by all employees and available in Myanmar language. This ensures that a greater number of employees will be able to assist in the event of a medical emergency both in the workplace and in general.
MEASUREMENT OF OUTCOMES

There are three key outcomes that help to measure Shwe Taung Group's sustainability progress.

Number of Employees

1. Shwe Taung Group is one of Myanmar's largest companies, with 6,100 employees. This number is inclusive of employees hired by Octagon Automobile and Machinery Services (OAMS) who as a subsidiary of Shwe Taung Group employ 687 people and submit their own annual COP report containing their separate sustainability activities. Total number of Shwe Taung Group employees not including OAMS employees is 5413.

</table>
This is a growing number and we continue to advance our working conditions and environment in order to maintain sustainable expansion. Shwe Taung Group is a fair employer, giving equal opportunity for employment, promotion, leave and skills development to both men and women.

2. Shwe Taung Group remains a favourite point of entry into a professional career for young graduates, both from high school and university (at different job levels). We remain a favourite due to the continued professional training and development offered to all employees who are looking to grow with the company in addition to good working conditions and promotion of a healthy work-life balance.

3. Our stakeholders respect the company policies of ‘no child labour’ and ‘no forced labour’, and this commitment is echoed through our contractors’ responsible actions when working with Shwe Taung Group. Furthermore, as a company we are hoping to establish some legal foundations in 2016 to ensure our contractors across Myanmar are not permitted to allow forced labour on any work site. This will include the requisite tools to identify forced labour in order to remove the problem.

INSURANCE POLICY

Shwe Taung Group is one of the first companies in Myanmar to provide their permanent employees with life insurance.

EMPLOYEE HANDBOOK AND TRAINING

Our company Employee Handbook is a valuable tool for educating our employees on Shwe Taung Group’s values, ethics, policies and practices. This document is currently under review and continues to evolve at a wide level. In addition to the Employee Handbook, Shwe Taung Group provides staff members with on-going skills development and training opportunities. In total, 101 training programmes have been delivered by Shwe Taung Group for the benefit of its employees. The training programmes coupled with the handbook are designed to protect the ethics of our company and also the rights of our employees. We want to ensure our employees feel safe at work and are able to maintain a healthy work-life balance.
## CODE OF CONDUCT

Shwe Taung Group’s code of conduct is critical for outlining the company’s standards, regulations and expectations of staff. The code of conduct protects the rights of our employees by establishing rules and regulations around workplace behaviours. This provides a safe working environment and ensures employees can make the most out of their working days. A code of conduct also institutes equality amongst employees, serving as an official guide to workplace relations.

Spotlight on training programmes

Shwe Taung Group is a top choice of employer in Myanmar by both entry level graduates and professionals. We are renowned for investing in our employees as we understand that their development is the key to our country’s success.

We began an in-house up-skilling programme whereby fifteen promising managers/engineers are selected to partake in further study consisting of four modules over six months. The study includes business administration, management, and workplace conflict resolution subjects, and is designed to strengthen strategic and entrepreneurial thinking by staff members. This programme is a benefit to the work of Shwe Taung Group as it ensures we maintain a strong leadership team and is beneficial for our employees who wish to gain life-long business and management skills.

We also run a course for young engineers to help guide them during their early years of professional development. The course is offered for free to recent graduates starting out with Shwe Taung Group and advises them on practical knowledge relating to their engineering studies. The programmes run are:

- Basic Engineering 8th Batch
- Advanced Engineering 5th Batch

Both courses run for a duration of six months.
In 2015, new laws in Myanmar enforced and regulated a minimum wage in the country. Shwe Taung Group is committed to upholding these legislative developments and has ensured our wages across all levels are above the minimum wage and remain competitive for employees at all levels and stages of their career. Some of Shwe Taung Group’s operations are seasonal and close over the wet season (May-September). For these operations we transfer staff to regions where operations are ongoing and ensure all relocation costs including accommodation are covered.

Currently, Shwe Taung Group monitors wage market values depending on project location in order to remain competitive with local salaries for a private company. Our senior management employees are locally hired with Myanmar nationals filling all management positions. We use public advertising through newspapers, internet and word of mouth to attract new talent.

Our management positions are all staffed by people from local communities and at the time of reporting there are 76 management positions held within the company.

**GRI G4 HIGHLIGHTS**

• Health and Safety Assessment: a human rights and environmental challenge – Shwe Taung Group’s products and services have been assessed in order to improve upon the company’s health and safety impacts. Currently there have been no incidents of non-compliance with regulations and voluntary codes concerning the assessments undertaken.
Shwe Taung Group employees are required to attend the Fire Safety Management Training which is conducted by the Fire Services Department each month. The training equips employees with the knowledge of how to best protect themselves should a fire occur. For the employees who cannot attend the fire safety training, there is a follow-up in-house training run by the attendees to convey their knowledge of fire safety measures.

Shwe Taung Group established an Education Support Programme for employees’ children which awards the students who complete the matriculation exam. This initiative started for the 2013-14 academic year and has been ongoing. There are 21 students who have been awarded in this 2014 – 15 academic year. The scholarship programme awards the students based on outstanding academic achievement.

The number of students who have been awarded scholarships in the 2014-15 academic year for their outstanding achievement.
Environment

Principle 7: Support a precautionary approach to environmental challenges

Principle 8: Undertake initiatives to promote greater environmental responsibility

Principle 9: Encourage the development and diffusion of environmentally friendly technologies
Environment at a glance

Shwe Taung Group is responding to the challenges of the Urban Heat Island effect by creating Green Roofs and planting vegetation around our developments.

Working towards Harmony With Nature
ASSESSMENT, POLICY AND GOALS

At Shwe Taung Group, we recognise the need to respect the environment and be cautious when conducting projects that may adversely harm the eco-system and bio-diversity of Myanmar.

Shwe Taung Group is actively working towards reducing our carbon footprint across all our operations and continues to develop tools to measure the outcomes of our progress in the direction of being more carbon neutral and environmentally sustainable.

Shwe Taung Group is aiming to progress to the international standards of ISO 14001:2008, ISO 20121:2012 and ISO 50001:2011 in relation to becoming more resource efficient and to promote cleaner energy production. We strive to achieve greater environmental management and will continue to refer to the UNGC principles and the GRI indices as we continue to develop our environmental policies.

IMPLEMENTATION

Eight ways we implement sustainable practices across our projects and operations

1. Energy efficient LED light bulbs are a company standard

2. Our shopping centres only use energy efficient electrical hand dryers

3. Cutting down paper usage through the digitisation of internal and external documents and communications

4. Company policy is to switch off all devices when they are not in use

5. Energy efficient air conditioners installed in all buildings

6. When paper is needed we only purchase eco-friendly products such as FSC, SFI, and PEFC

7. When greener technologies are produced, we upgrade our appliances where possible

8. We have created systematic office plans to educate and encourage staff to ‘go green’ through our Energy Management System Plan and Green Office Plan.
Spotlight on raising awareness as an industry leader

Shwe Taung Group shares responsibility with the company’s stakeholders in promoting awareness about environmental issues. The wider community plays a key role as end-users of Shwe Taung Group’s operations, whether it be natural resources, shopping centres, cinemas or roads, and for this it is important that as a business we ensure the long-term use of these projects follows a sustainable method of practice. This includes educating the public on the consequences of over-consumption of natural resources such as energy, water and non-recyclable materials, to developing shopping centres with appropriate recycling mechanisms and energy efficient electricity throughout. Waste management is of particular importance to Shwe Taung Group and we are leading the movement to implementing sound recycling practices in Myanmar. In all our offices we have educated our employees about separating waste and recyclables to ensure we lower the impacts of consuming non-biodegradable goods and set a good example of how to care for the environment.
• Shwe Taung Group runs a 'one for one' policy where a tree is planted for every one cut down. This policy is recognised across all of our projects and is honoured by all of our subsidiaries.

**Tree Plantation Hlawga National Park, Yangon**
Every year a tree plantation programme is implemented as part of Shwe Taung Group’s sustainability activities. In 2015, 25 acres of trees were planted to prevent the damaging effects of deforestation and natural disasters in Myanmar. The planting of trees around Hlawga Dam has helped preserve the natural environment which will aid in the long-term distribution of water to Yangon City.

**Industrial Zone and Project Site Tree Plant**
Since 2012, an annual tree planting project has been carried out by Shwe Taung Group in the areas nearby to our projects. By doing this we are helping to conserve the environments in which we operate in. In 2015, 7,500 trees were planted in the surrounding areas of our project sites.

• All of our major Junction shopping centres honour the annual Earth Hour advocacy event and turn off all electricity for one hour in a single day per year. We also advertise for the event throughout our shopping centres to ensure the public understand the aims of Earth Hour and encourage behavioural change in electricity consumption.
• Shwe Taung Group established the Environmental Awareness Poster Campaign and Practical Usage Programme. Both initiatives target environmental degradation and pollution specific to the Myanmar context. The campaign aims to create awareness around the negative impacts of using betel nut, having poor waste management facilities, and the environmental effects of the over consumption of water and electricity.

• Golden Tri Star has begun recycling empty bitumen drums into stone trays, containers for dry goods, boxes, walling or fencing and filters.

• HTC has invested in solar lighting systems across seven of their site areas. The solar lights are able to light up 15 square feet and are in use as energy efficient security lighting.

• HTC has also established a recycling plant that is capable of producing sand and rocks from solid waste.
For all our major developments, Shwe Taung Group performs in-depth Environmental Impact Assessments (EIAs) to identify environmental threats or opportunities related to the site and its surroundings.

Our recycling plant for residual concrete has been a successful recycling project, where we separate ultra-fine particles from cement mixing trucks to be re-used in other projects.

It is a priority on each site where major developments are taking place to ensure that any discharged waters are not contaminated before being released into public drains. We have put in place water waste treatment plants to address this environmental issue. Shwe Taung Group also uses rain water harvesting mechanisms where possible to save on our water consumption.
Shwe Taung Group undertook a thorough Environmental Impact Assessment (EIA) prior to the commencement of building Junction City. The overall design aims to achieve the Green Mark Gold Certification awarded by Singapore’s Building and Construction Authority.

This innovative building design will lead the way in Myanmar to ensure developers adopt a more sustainable approach to new construction projects. The integrated development is still currently under construction and is set to be completed in phases from the first quarter of 2017. Junction City will comprise Grade A office spaces, a 5-star luxury hotel, a world-class lifestyle shopping centre, and serviced residences. It will feature a ‘green roof’ which is a sustainable way of controlling extreme heat in cities. We hope more buildings will add this feature in years to come to help manage the effects of climate change in Yangon. More sustainability features include: solar panels for hot water, photovoltaic panels for natural heating, and occupancy motion and daylight sensors for lighting (LED used). Junction City also utilises sustainable building materials where possible and incorporates sustainable construction methods.

Once completed, Junction City will be set up to function in a sustainable manner, having adopted environmentally friendly building designs throughout. Water conservation and waste management are priorities and systems will be put in place to ensure rain water tanks are used where possible and that water waste is dealt with so as not to pollute public drains. The water preservation methods implemented are aimed at limiting the need for ground water extraction and to reduce wastage.

In addition to the environmental sustainability of the building, Shwe Taung Group ensured all sub-contracting developers signed an anti-corruption contract. This is a progressive move forward to help eliminate corruption from corporate business in Myanmar.
the abundance of hyacinth water, that have led to poor environmental conservation and is damaging the fragile environment of Inle Lake.

the objective of improving this situation and provided technical support to the community make the switch from agro chemicals to safe and chemical free plant protectors. We provide consistent training to communities on environmental pollution, hygiene and manage environmental degradation from human interference. In addition, HTCT established a library in the community to ensure people have access to the necessary educational materials to continue their learning on environmental conservation.

In 2015, we measured the outcomes of our interventions at Inle Lake through an impact assessment with 10 participants from surrounding villages who have been receiving educational support through HTCT initiatives -

farmers have incorporated healthier pest-control methods on their local crops.

- Environmental and social training courses involving the production of environmentally sustainable liquid soap and shampoo through reducing chemical additives have been successful and some of the trainees are now producing the

- The clothes making course for young women has successfully finished and women who have sewing machines have been able to create business from their

- Inle people have experienced economic and social development since HTCT began implementing sustainable community-minded initiatives there.

**SHWE TAUNG GROUP PROVIDES CONSISTENT TRAINING TO COMMUNITIES ON ENVIRONMENTAL POLLUTION, HYGIENE AND PEST MANAGEMENT IN ORDER TO CREATE A MORE SUSTAINABLE COMMUNITY EXISTENCE AND MANAGE ENVIRONMENTAL DEGRADATION FROM HUMAN INTERFERENCE.**
Spotlight on the improvement of Industrial Energy Efficiency (IEE) project

Shwe Taung Group is actively participating in the IEE project in Myanmar, implemented by the United Nations Industrial Development Organization (UNIDO). The project seeks to advise both the public and private sectors on how to best manage the energy industry’s consumption and efficiency through the establishment of Energy Management Systems (EnMS). The energy industry accounts for more than a third of the global energy consumption and total greenhouse gas emissions. With this in mind Shwe Taung Group has committed to work towards ensuring the economic growth occurring in Myanmar is not linked with environmental degradation and unsustainable energy practices. The IEE project upholds the international commitment to six key SDGs:

7 - clean energy  
8 - good jobs and economic growth  
9 - innovation and infrastructure  
12 - sustainable cities and communities  
13 - protect the planet  
17 - partnerships for goals

Shwe Taung Group’s cement manufacturing plant and concrete-mixing plant have been selected as host plants for the implementation of EnMS in Myanmar. Our energy company will provide demonstrations and up-scaling of energy saving measures with the support of trained personnel. EnMS standards provide a best practice method to integrate energy efficiency with industry corporate culture. EnMS provides a proven policy-driven market-based tool to aid in the management of energy consumption specific to the energy industry. The policies adopted by Shwe Taung Group aim to regulate and reduce greenhouse gas emissions in line with the SDGs and in turn influence the interest for investing in EnMS training and implementation for all energy companies in Myanmar. In addition to the environmental aspect of EnMS and the IEE project, Shwe Taung Group understands the economic value of greater energy efficiency for both for the public and private sector, as sustainable energy policies prove to be more cost-effective.
SHWE TAUNG GROUP AS AN INDUSTRY LEADER

• We sponsor public debates and platforms relating to the promotion of safety policies in Myanmar.

• Fire safety trainings have been put in place across all our companies, operations and projects along with emergency preparedness training.

• We run risk assessments in a systemic fashion and mitigate such risks with the economic application of training, equipment and security procedures.

ENVIRONMENTAL FORUMS ATTENDED IN 2015

1. Workshop run by Global Environmental Facility (GEF) and UNIDO – promoting sustained greenhouse gas emission reduction in Myanmar industry through the improvement of policy and stricter regulatory frameworks. We discussed institutional capacity development for industrial energy efficiency and the implementation of energy management systems based on ISO 50001.

2. Seminar run by UNIDO – aimed to provide a practical introduction to Resource Efficiency and Cleaner Production (RECP) as well as low carbon industrial development with a particular focus on South East Asia.

3. We continually attend forums on moving Myanmar forward in an environmentally responsible way, with the objective or collaborating with other businesses to build a more sustainable Myanmar.
Principle 10: Work against corruption in all its forms including extortion and bribery
Anti-corruption at a glance

New Information Technology upgrades – Advancing Myanmar’s corporate transparency

SHWE TAUNG GROUP IS WORKING IN PARTNERSHIP WITH LOCAL CIVIL SOCIETY ORGANISATIONS TO HELP REMOVE CORRUPTION FROM MYANMAR

0 tolerance policy on corruption

14th
Myanmar’s 14th largest tax payer for 2014 (2015 Announcement)
Corporate governance is fundamental to maintaining a successful business. At Shwe Taung Group, we believe that transparency and accountability are necessary to ensure our company maintains a high standard of corporate governance and in turn remains a sustainable business model.

We publicly state our commitment to fight corruption at all levels, and in order to manage this commitment, we have implemented an effective system to identify the signs of corruption and eliminate them at their core. In actively working to fight corruption, Shwe Taung Group sends a strong message to our stakeholders that the private sector shares in the responsibility of removing corruption from Myanmar.

As a successful Myanmar business, we aim to positively contribute to policy development at the national level in this area. Shwe Taung Group ensures business partnerships are built on trust and that both parties operate with equal respect for ethics, transparency and accountability.
Shwe Taung Group is actively working towards implementing greater company policies to combat corruption and has so far been ensuring our contractual agreements with business partners have anti-corruption clauses within them.

Shwe Taung Group currently has a ‘zero tolerance policy’ on corruption which is clearly stated within our Employee Handbook. The policy states that “it is forbidden to accept or give any kickbacks or bribes from anyone or to anyone”. The punishments for corrupt activity are also clearly stated: corruption leads to termination of contract.

Employees are encouraged to report on any behavior that seems corrupt within the business and whistleblowers may remain anonymous. Whistleblowing can be done through internal measures of contacting the senior management staff at the Yangon Headquarters. In addition to this, there are hotlines available and complaint forms that can be filled out in accordance with our grievance mechanism policies.

Shwe Taung Group has been engaging with the Myanmar Centre for Responsible Business (MCRB) to continuously improve our internal reporting, and regularly attends workshops and forums relating to the improvement of reporting and transparency in private institutions.

At this year’s company management retreat, sustainability was the core theme and a series of presentations and debates were given on the topic of anti-corruption and how greater transparency will lead to improved sustainability.

- MCRB held a “Workshop on Developing an Effective Yangon” to follow up on their annual transparency report. The workshop focused on what grievance mechanisms were and their importance within the private sector. The similarities and differences between grievance mechanisms and whistleblowing were discussed and good examples of international standards and best practice were shown.
Spotlight on the protection of Intellectual Property

Shwe Taung Group has invested in Microsoft technology in order to achieve greater efficiency, productivity and software security for the company. Given Myanmar’s recent economic development and FDI interest, it is important Shwe Taung Group is equipped with IT that allows us to effectively compete on a global market. Investing in Microsoft technology will improve the company’s ability to collaborate with our subsidiaries, stakeholders and consumers both in Myanmar and globally.

Shwe Taung Group’s IT transformation began with the Microsoft Enterprise Agreement which includes a Core Client Access License (CAL), Windows 10 Enterprise and Office 2016 Professional. The software update will allow for greater corporate governance through the adoption of international business practices and the ability to respect intellectual property rights.

“As a leading Myanmar company, we aim to set the benchmark for good corporate citizenship in the country and create a positive influence on our stakeholders in our supply chain. We hope our partnership with Microsoft will further encourage our suppliers and contractors to adopt higher standards of business practices.”

Aung Zaw Naing
CEO Shwe Taung Group
MEASUREMENT OF OUTCOMES

Through Shwe Taung Group’s effective internal and external reporting system, Zero cases of bribery and one case of extortion were reported in 2015.

Four percent of our operations have received an in-depth corruption assessment this year and our aim is to improve this to 100 percent of our operations over the coming years as policy develops in this area.

Shwe Taung Group’s website was named the fourth most transparent website in Myanmar by the MCRB in 2014 and seventh most transparent in 2015.

Shwe Taung Development has been awarded fourth “Best Tax Payer” in Myanmar for 2015 by the Internal Revenue Department. This award is not based on the total amount of tax paid by the company but rather on the regularity of tax payments and consistency of amount paid throughout the year. This initiative was put in place to promote the need to pay taxes for public benefit.
PUBLIC TENDERS

The Tamwe flyover bridge was a public tender won by Shwe Taung Group in the company’s joint venture system of public and private interests promoting shared value.

INFLUENCE ON OUR STAKEHOLDERS

After successfully winning the tender for the development of Junction City, Shwe Taung Group began strategising how we could ensure that future sub-contractors for this project would uphold the same principles of anti-corruption as we do. On 6 October 2015, Shwe Taung Group invited all of the sub-contractors selected to work on the Junction City and Junction Squares project to participate in a public signing ceremony for their new contracts which explicitly stated policies relating to anti-bribery and anti-corruption. Government Economic adviser Prof. Dr Aung Tun Thet gave a welcome speech and our CEO U Aung Zaw Naing was a keynote speaker at the event.

The ceremony was a public way for Shwe Taung Group to express our zero tolerance policy on corruption. We are committed to adhering to our ISO 26000 policy within our Code of Conduct of eliminating and preventing corruption in all its forms. We hope to act as a role model for all Myanmar companies to follow suit for the benefit
The decision board for Shwe Taung Group is chaired by Aik Htun, Chairman. The board consists of 11 members, including the CEO, two Deputy CEOs, two Deputy Managing Directors and five Directors. Each member of the decision board plays an executive role within Shwe Taung Group.

Senior executives are remunerated based on performance and regulated performance assessments take place each year, measured in terms of financial revenue and operation numbers.

Shwe Taung Group is in the process of developing risk management systems in order to establish a more sustainable approach to risk monitoring and reporting.
## GRI G4 Indices

**G4-1** Provide a statement from the most senior decision-maker of the organisation (such as CEO, chair, or equivalent senior position) about the relevance of sustainability to the organisation and the organisation’s strategy for addressing sustainability

Chairman’s Statement 1

**G4-2** Provide a description of key impacts, risks, and opportunities
